EAST TIMOR INFORMATION TOUR, Italy 25/8-16/9/91

SCI-Italy organizes this summer a new edition of the information tour on the East Timor issue. Since 1989 our association have organized solidarity campaigns with FRETILIN; two information tours have been carried out successfully in the meantime.

This year's tour will include about 10 cities, in the north and centre of Italy. We aim at raising awareness about the massacre of Timorese people, denouncing Italian cooperation with Indonesia and raising support for FRETILIN.

The tour will start on the 25th August anf finish on the 16th September. During the first 4/5 days the volunteers will learn and exchange informations about the situation in East Timor and the programme of the tour. A street-teathre performance will be set-up. During the rest of camp volunteers will be travelling with stops in the different cities. In each city they will performe the street-teathre and carry out other information works. Meetings with local authorities and public debates will be organized by local solidarity groups.

The 7 volunteers will be living and working together with a member of the secretary of the FRETILIN office in Lisbon, Antonio Maria Araujo.

This year we would like to have as participants of this tour only people who have been already working in solidarity groups on the East Timor issue. The group of participants should be international, so that we have decided to accept not more than 2 people from each country.We hope that one or two members of your association/group will be interested to participate in this solidarity tour.

Accomodation, food and travel costs through Italy will be paid by SCI; the volunteers should pay only an application fee of $ 80,- (assurance is included).

Last term fro the inscription is the 1st August '91.

For every information, call our office in Rome (mo-fr 10/17) **tel .396-700.53.67/700.5994/700.54.69** and ask for **Renzo Sabatini**
